PROFILE

Highly motivated and detail-oriented Junior Full-Stack Developer seeking a challenging position to utilise my skills and expand my knowledge in web development. With a strong foundation in programming languages such as HTML, CSS, JavaScript, and experience in front-end and back-end development, I am eager to contribute to a dynamic team and contribute to the success of projects.

EDUCATION

Code Institute, Dublin — *Level 5 RQF/EQF*

November 2022 - November 2023

Full-Stack Development Course with Code Institute including learning languages such as HTML, CSS, JavaScript and Python. This course consists of completing 5 Projects with deadlines to simulate a real-world working environment.

STUDENT PROJECTS

Project 1 — *HTML/CSS*

This project consisted of using only HTML and CSS to create a user-friendly and responsive website.

Project 2 — *HTML/CSS/JavaScript*

This project consisted of using what we previously learned and implemented JavaScript to make a Quiz App.

Project 3 — *Python*

This project consisted of using Python for the first time to make a CLI battleship game.

Project 4 — *Full-Stack Toolkit*

This project consisted of using all the languages I previously learned using Django and PostgreSQL to make a user-friendly and responsive website with a database.

Project 5 — *Advanced Front-End*

This project consisted of React.js for the front-end and utilising Python for the back-end using Django REST Framework as the API and PostgreSQL for the database.
